Competency-Based Professional Standards for Chiropractors Discussion document – Invitation for submissions

The Board's *Competency-Based Professional Standards for Chiropractors* document details the professional standards required for the Board to issue an Annual Practicing Certificate to a practitioner each year.

This document has recently been updated based on submissions received from chiropractic stakeholders and a copy is available on the Board's website www.chiropracticboard.org.nz.

The Board has asked that the updated document be circulated to chiropractic stakeholders to provide them with an opportunity to make further submissions should they wish to do so.

The closing date for further submissions on the document is Friday 4 December 2009.

It is intended that after the consideration of submissions an updated copy of the document will be issued to chiropractors in early 2010. That document will become the basis on which chiropractor's Annual Practicing Certificates will be issued in March, 2011.

Submissions should be sent to the Chiropractic Board by:

Post PO Box 10 140, Wellington

Fax (04) 474 0709

Email karl.bale@chiropracticboard.org.nz

Stakeholders requiring a hard copy of the document should contact the Board CEO.
